

Alison J. Barrett

To Whom It May Concern:

I have been trying for years to find a company whose products I like, trust and can stand behind. I found that in Young Living and have become a direct seller. Unfortunately, although I am sure with the best of intentions, the Federal Trade Commission will bring undue hardship to people who are pursuing a career in this field. The FTC has proposed a new rule (Business Opportunity Rule, R511993) that will negatively affect the direct market selling industry. Please do what you can to stop this rule from passing. Thank you.

Sincerely,

Mrs. Alison Barrett
